PF

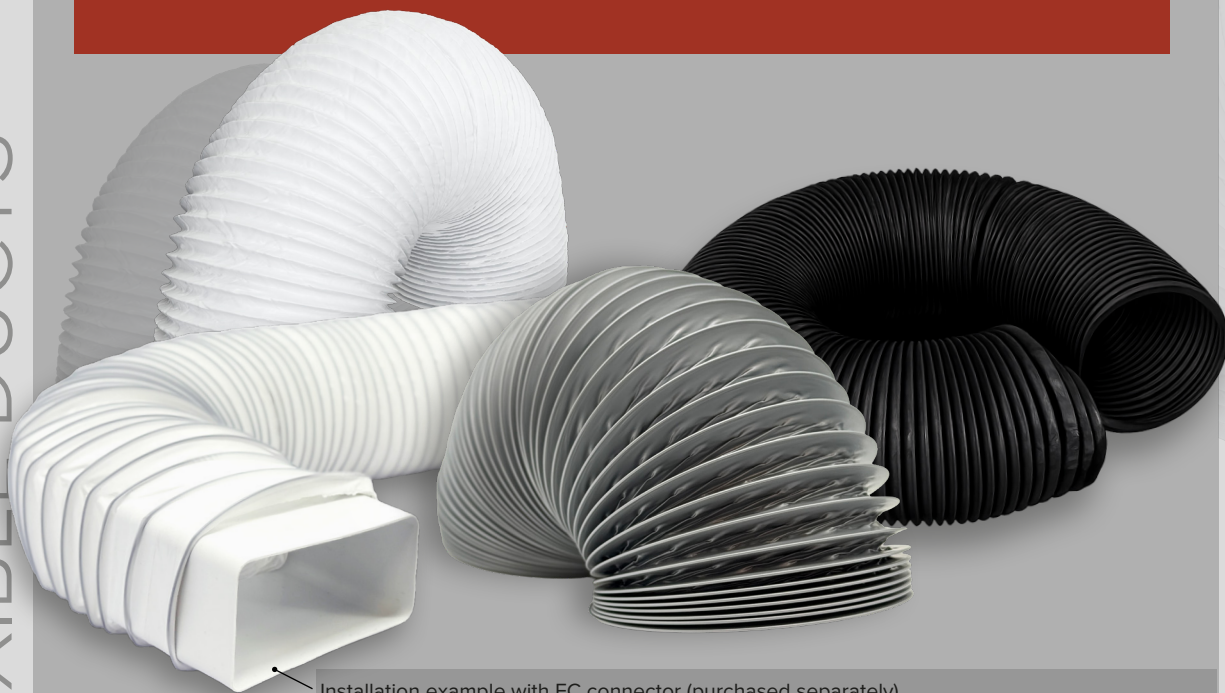

NEW

Now in the assortment: PF ducts for round channels in the new **BLACK COLOR** and **NEW SIZES** of previously available models

We will find a solution for tasks of any complexity

PF FLEXIBLE DUCTS – A RELIABLE AND EFFICIENT SOLUTION FOR VENTILATION SYSTEMS

- **Withstand the load.** Thanks to a steel wire frame, the ducts maintain their shape even at high airflow speeds. The full power of the system is used as intended
- **Withstand temperature fluctuations.** Operating temperature range: from -30°C to $+100^{\circ}\text{C}$. No cracks, no softening, no loss of tightness
- **Quick to install.** Flexible construction ensures easy installation even in the hardest-to-reach places
- **Long service life.** The reinforced corrugated hose made of high-strength steel wire and PVC film provides exceptional resistance to deformation, wear, and mechanical damage

Installation example with FC connector (purchased separately)
